

REMARKS

Applicants thank Examiner Dryden for his time during the telephonic interview conducted with the undersigned on April 3, 2006. During the interview, the Examiner agreed that an amendment to the independent claims incorporating an optical output which is configured to be implanted in the eye and electrically connected to the pressure sensor device overcomes the cited references. Applicants amend independent claims 1, 17, and 35 to incorporate this subject matter. Applicants also amend claims 11-13, 15, 16, 29-31, 33, and 34 and add claims 37-40. No new matter is added.

In view of the above amendment, Applicants believe the pending application is in condition for allowance.

Applicant believes no fee is due with this response other than as reflected on the attached Amendment Transmittal. However, if a fee is due, please charge our Deposit Account No. 18-1945, under Order No. CTCH-P01-021 from which the undersigned is authorized to draw.

Dated: April 10, 2006
